GOT GRASS? MOW HIGH

Make your lawn easier and cheaper to maintain by mowing high - **three inches** is the rule!

The roots of your lawn grow as deep as the grass grows tall, so taller grass has deeper, healthier roots. Keep your lawn 3” or higher and never cut off more than 1/3 of the blade of grass each time you mow.

A healthy lawn tolerates hot, dry weather better - so you can spend less time this summer watering and fertilizing.
