

# Bay Village Waterways 2021 Cleanup Data Collection

The Bay Village Green Team invites you to collect data so our partners can chart actionable ways to reduce wastes at different levels in the Cahoon Creek—Frontal Lake Erie watershed!

## How to Participate With **LITTERATI**

**1**  
Download the **Litterati** app on your phone and create an account (we recommend using the email option).

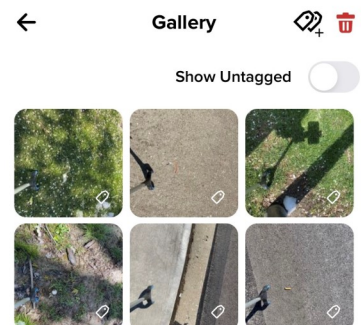

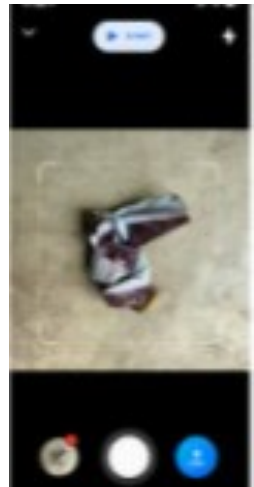

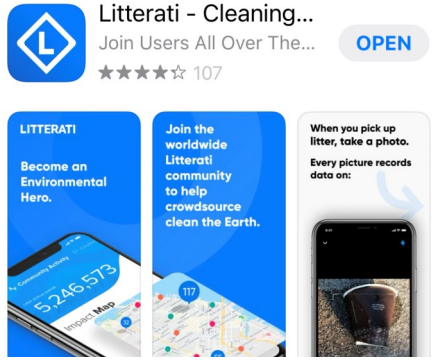

In the app, join our local challenge:  
*Bay Village Green Team Waterways Cleanup CPWP2021*

**2**  
As you clean up, use the app to take a photo of each piece. Litterati will automatically geotag and time stamp each photo.

Use the app button of the side button on your phone for a one hand shot.

**3**  
You can upload photos as you go or all at once when done and tag your photos in the gallery where the Artificial Intelligence (AI) capability will assist you with suggestions.

Tag the object, material and brand to your photos: this will help the analysis for solutions.

Questions about Litterati or need some litter pick up gear? Email or call Elizabeth Hiser, Watershed Program Manager at Cuyahoga Soil & Water Conservation District [ehiser@cuyahogaswcd.org](mailto:ehiser@cuyahogaswcd.org) or 216-202-4610
